

AMANI DEVELOPMENT ORGANIZATION

Ibihwa Bible College

Central Tanzania

Every year through Amani several students receive sponsorship assistance to attend Ibihwa College. Depending on the length of the course students are trained to become Village Catechists (really lay pastors), or Ordained Pastors. Last year, through Amani sponsorship, five students graduated from Ibihwa. Because of a clash of responsibilities, here (the arrival on that day of the French students), I was unable to attend the Graduation Ceremony.

This academic year, commencing early August 2014, I have two young men seeking sponsorship. Both are in their second and final year. I have known Paul for several years. Mika is new to me and is from a distant village. He comes with high recommendations. Both of these young men have no support other than what we can offer. Paul worked here prior to going to College but has now run out of funds. Mika had worked and saved but has also now used all of his funds.

I recommend both of these young men for sponsorship support. Annual sponsorship for one year is \$375.00.
